Help me off your back I found it's so futile to attack so
what else you got you won't tell the truth until you're
caught I'll be in your room you'll be comin' soon I'll be
gone all day grab it,
S your way I wish I could pretend but you'll fire one off
at me again revenge me now don't it seem like you're a
little sweet in your room

Who was willing got to assume felt too hard pain is
chilling caught off guard and now should I fall apart I'll
be in your room you'll be comin' soon take it out of me
grab it, that's your scene
Ot feeling well it's not goin' so good, oh can't you tell
it's a crazy time fire one off at me and I'll be fine in
your room who was willing got to assume felt too hard
pain is chilling caught o
Ard soon should I fall apart it's so crazed you were
swingin' still amazed what's in your laugh ? you're still
swingin' you're so unphased I'd no idea you'd go this
