Every see to came  
I use such restraint  
What's left around me  
Is there to me  
Cant walk with you  
This is overdue  
And it spills from inside  
Into and all over you  
Come on out  
Feel the pictures  
As they warn you  
Bottom out, it's good for you  
It can be real  
Nothing like a picture of you  
Can not follow you along  
So you have a ways to grow  
Can not follow you alone  
Dreams are not themselves  
Dreamnt withotu living it  
It's hard to tell  
When the day begins  
It's the evil twin  
Let it out  
???  
All the doubt has been good to me  
You can't be this  
Nothing like i picture it  
Giving me a chill  
Nothing like i picture this
