I know why you came here  
I know it's the same fear

It seems loaded  
It seems true, true [through me? ]  
Got no hand what can I do  
I've been strumming [struggling? ]  
You've been blew [blue? ] through  
I don't get what you need to do  
I know why you came here  
Please don't be ashamed of you [here? ]  
And should I lay a claim here  
I know it's the same fear

[solo over vocals]

I put me out here  
I move through too  
Will I get the same from you?  
I know why you came here  
Please don't be ashamed here  
I know it's the same sheer [fear? ]  
Should I lay a claim here?
