Every night, it's another girl  
I obsess about my finest dream  
But I need to feel today, why am I driving you away?  
Sure not over you  
So you sit, that's a way to be  
You don't have to bottom all along  
But there's things you need to be  
It all can't come from me  
Every night we're drifting farther  
All the love and life is gotta count for something  
Gotta all pull it together  
Don't wanna blow it together  
Sit up and feel strange  
Solidify a change  
Sure not over you  
Piece together, how we've come along  
Float [flowed? ] so easily before  
So it's me that's flakin out  
Wish I knew what that's about  
Sure not over you  
Sure not over you  
Every night we're drifting farther  
Vibes so bad I wanna puke  
All the love in life has gotta count for something right  
Gotta all pull it together  
Don't wanna blow it now  
Sit up and feel strange  
Solidify the strange  
And it's me that's flaking out  
Wish I knew what that's about  
There's so much I need to be  
And it's gotta come from [comfort? ] me  
Sure not over you  
Sure not over you
