There's a way I feel right now wish you'd help me, don't  
know how we're all nuts so who helps who some help  
when no one's got a clue baby, why don't we? baby,  
why don't we? there's a place I'd I  
O go when you get there then I'll know there's a place I  
know you've been here's a wagon, get on it baby, why  
don't we? baby, why don't we? baby, why don't we?  
baby, why don't we? why don't we?  
On't see me you won't see me there you are and here I  
stand tryin' to make you feel my hand you won't see  
me you won't see me I ring the doorbell in your mind  
but it's locked from the outside yo  
't see me you won't see me you don't live there anyway  
but I knock on it all day you won't see me you won't see  
me there's a place I go but you're not there and I'm  
supposed to know how to get t  
Re you're gonna be but you don't even know so I'm  
flakin' while you're shakin' it with every stone you fly  
without a mind, without a spine what is it that you  
wanna find

[solo] there's a place I go but you're not there and I'm  
supposed to know how to get to where you're gonna be  
but you don't even know so I'm flalin' while you're  
sailin' off without a course in  
Without a mind, without a dock what is it that you  
wanna find there's a place I'd like to go when you get  
there then I'll know there's a place I know you've been  
here's a wagon, get on it baby,  
On't we? baby, why don't we? why don't we? you won't  
see me you won't see me there you are and here I  
stand tryin' to make you feel my hand you won't see  
me you won't see me I ring the doorbell  
Ur mind but it's locked from the outside you won't see  
me you won't see me you don't live there anyway but I  
knock on it all day you won't see me you won't see me
