"Water"

Visit "[Water](#)" on MotoLyrics.com

I saw you down across the water you're floating safely
in the way you do then I scammed before you saw me
I've gotta keep thinking you wanted to by the shoreline,
will you be fine? or will it c
You? and when you taste it, will you embrace it? what
will you let it do to you? grab a look across the water we
grab a smile and then you're gone a while with you it'd
be across the water when
Osing it I like your style by the shoreline, will you be
fine? or will it cover you? and when you taste it, will you
embrace it? what will you let it do to you?

Come on, baby drive me out of mind mind if I come
home, along with you and see what you do this is crazy
and nothing more I want to see is that the safest place
to sit and be so spacy scary thin
Ross the water you'd never know till they have their way
with you you won't catch me deep in the water however
much I want to play with you [solo] don't stay in long no
one's that strong enough,
To crumble whenever the water wants you don't be so
crazed I'm just tryin' to save you from losing everything
you've got this is no time to rot don't be fooled by all
the coolness rushing by don
T it grab your mind pull out now or you will find all you
strive for nothing, gone, no more you're his servant
now
