Why can't it just be cool and free us?

Seen enough to eye you
But I've seen too much to try you
It's always weirdness while you
Dig your much too much to fry you
The weirdness flows between us
Anyone can tell to see us
Freak scene just can't believe us
Why can't it just be cool and leave us?

It's so fucked I can't believe it
If there's a way

I wish we'd see it
How it could work
Just can't conceive it
Oh what a mess
It's just to leave it

Sometimes I don't thrill you
Sometimes I think I'll kill you
Just don't let me fuck up, will you?
'Cos when I need a friend
It's still you

What a mess...
