I know you're waiting
I'm through relating
I've had enough

I'm sick of reading
My interest fading
It's gettin' rough

I know I've been that way too long
Between our own useless

Tide it over
It's getting slower
Time for a change

And there falls the prison
Don't wanna live in
Expand my range

I know I've been that way too long
I know it's useless

The charm is gone
Time to move on
I'm ready now
The question is, how?

I'll keep on pushin'
Throw out the cushion
I need to do this

Beyond the darkness
There must be one kiss
So give me hope

I know I've been that way too long
Gettin' the move on
