And I know the way I feel it
All the way, all the way now
Feels the same to me but I'm kneeling
I haven't called, I haven't called now

And I know the way [Incomprehensible]
It's been done, it's been done now
I got lost [Incomprehensible] feeling
Call me back, call me back now

And I have a place, can I keep it?
For a while, for a while now
I got lost [Incomprehensible] I'm kneeling
Call me back, call me back now

All the way, all the way now
Can we be the same again?
Can we be the same again?
Can we be the same again?
Can we be the same now?
