I got home again, I watched you float away  
I would like to, but can't seem to ever say  
If you told me, would I show you what to do  
And I could tell

Because I know myself  
I know it oh so well

I might come and go  
Till I can feel you near  
I don't wish this on your friend, but was I clear?  
How's it possible to be there for so long and be so  
feared?

'Cause I know myself, it's gotten so severe  
Is the light ahead?  
Is the night ahead?  
We need a creed

Is the light ahead?  
Is the light ahead?  
Enough for two?

Look the other way  
Can't find it, but I try  
Senses overloaded, pretty sure they're fried  
Thought I picked it up, but it's nowhere around  
My hands are tied

'Cause I know myself  
I'm pretty sure I'm high

Is the light ahead?  
Is the night ahead?  
What to do?

Is the light ahead?  
Is the light ahead?  
Enough for you?

'Cause I've come this far without it

But I can't go on without it  
Tell me one less thing about it  
Then I could leave

Every day it's getting harder  
It's a life I need started  
Try to grab, it's getting farther away from me

I got sick and you got sick of all my pain  
I got sick of hoping you would understand  
There's a side I hid from people  
Kind of people I don't know

I don't know the end  
I don't want you to tell  
'Cause I know myself  
I know it oh so well
