Every one see to come
I use such restraint
What's left around me
Is there to me
Can't walk with you

This is overdue
And it spills from inside
Into and all over you
Come on out
Feel the pictures

As they warn you
Bottom out, it's good for you
It can be real
Nothing like a picture of you

Cannot follow you along

So you have a ways to grow
Cannot follow you alone
Dreams are not themselves
Dreamt without living it

It's hard to tell
When the day begins
It's the evil twin
Let it out

Wrap the beat
Around you endlessly
All the doubt
Has been good to me

You can't be this
Nothing like I picture it
Giving me a chill
Nothing like I picture this
