Hey, what's bubbling down under there?
Why's it screaming? What's unfair?
Please excuse it for getting hard
Let the shellfish swell inside
But how should I now watch it squirm?
It's askin' me what's that I learn

Stay inside, pull me out of space
Trip me sprinkling gray
Stay and take my fate

Thought I knew you, stuck out my hand
You bet wish I could understand
It's a twisted feeling, it's staring bored
Now it's time to burn the hope I scored
Wait for me there, the gas can run
Still your righteousness won't be outdone

Stay inside, pull me out of space
Trip me sprinkling gray
Stay and take my fate

Take my fate
Take my fate
Take my fate
And take my fate
