Well it's a long hot road I've been upon through the  
desert of your soul  
I've looked high and low for water but it's not there no  
no  
And all the promises of springtime turned to lies so  
cold  
But I'm stronger than you know and I've come to let you  
go  
Go eat your heart out you've been a bad bad girl you've  
been hungry all of your life so eat it out  
I've been a prisoner just locked away inside your velvet  
jail  
It don't matter at all some things can grow without the  
light alright  
Spinning cages for her pleasure weaving chains to hold  
the prize  
Magic moments with the jailer all on fire and then he  
dies  
Eat your heart out you've been a bad bad girl you've  
been hungry all of your life yeah  
We speed across emotions and then we lose our hold  
We turn on wings of passion that we can't control no  
And all the promises of springtime turned to lies so  
cold  
But I'm stronger than you know and I've come to let you  
go  
Go eat your heart out you've been a bad bad girl you've  
been hungry all of your life so eat your heart out  
Eat your heart out you've been a bad bad girl you've  
been hungry all of your life so eat it out  
Eat your heart out run to the shadows of night eat your  
heart out  
Spinning cages for her pleasure weaving chains to hold  
the prize  
Magic moments with the jailer all on fire and then he  
dies then he dies
