Spent the night on the road
And never saw the miles go
Running away
I've got to get free from myself

Now stories were made to be told
And here's the one that I know
Oh, I can't hide it anymore
There's evil on Queen Street
Some evil up the road

I saw the house in the dark
It seemed to say, "Come touch me
I've got a heart
Open the door to my soul"

Climb to the top of my stairs
And look into my windows
I can be your wishing well
There's no evil here on Queen Street

Let me in
I can warm in the heat of your fire
It's no permanent sin to be bad
If you're sorry

Let me go
You're a promise that comes from a liar
I don't know
If I ever can wash all the evil away, hey

Struck a match at the dark
It screamed, "No, no I love you"
Together we're strong
You always believed what I'd say, hey

But now the heat of a flame
Starts me to remember
There's no evil, no more evil
No evil on Queen Street

Just some smoke up in the air

No evil, no evil
