In the still of the night, I held you, held you tight  
'Cause I love, love you so, promise I'll never let you go  
In the still of the night  
(In the still of the night)

Woh, I remember that night in May  
The stars were bright up above  
I hope and I'll pray to keep your precious love

So before the light, hold me again, dear, with all of  
your might  
In the still of the night  
(In the still of the night)

So before the light, hold me again with all of your  
might  
In the still of the night  
(In the still of the night)  
In the still of the night
