I fell in love with a runaway, a little runaway girl  
Each night she's all that I dream about, my little  
runaway girl  
She used to make me glad  
Now I'm sad & I feel so bad  
Oh why must I always be waiting for little runaway girl?

My friends all told me I'm wastin' time with my runaway  
girl  
How did I know it was just a line from my runaway girl  
She broke my heart in 2  
Now I'm blue; you'd be too  
If you were in love with a runaway, a little runaway girl

Although she may not feel this love the way that I do  
Each night & day I'll pray that someday maybe she'll  
come through & then...

I know I won't be a lonely boy with my runaway girl  
'Cause now I'll be more than just a toy for my runaway  
girl  
If she comes back to me  
I'll be free, then you'll see  
Oh, my heart will sing & be glad again with my runaway  
girl
