Sometimes It feels like the world just weighs down on  
my head

And sometimes I want to close the blinds and stay in  
bed

(People Want to Judge before they even know your  
name)

I finally got my head on right

I'm more focused than ever before

Things happen on a daily that I can't explain

But I won't give up, I'll keep chasing fame

(Lyfe Lessons, Only make us stronger)

(I know the struggle won't last much longer)

(U do you and I'll do me)

(These Lyfe Lessons, Help to define who we be)

(Some battles we'll loose and some battles we'll win)

(But everything is gonna be alright in the end)

I had my heart broken once or twice

I must confess through it all, I almost lost control of my  
lyfe

(That's When I looked to the sky and realized heaven  
knows what's best for me)

Lost my momma at the age of twenty

I let my mind fall victim to many

But I know that I got the right to let my light shine not  
matter what may come my way

Lyfe Lessons, Only make us stronger)

(I know the struggle won't last much longer)

(U do you and I'll do me)

(These Lyfe Lessons, Help to define who we be)

(Some battles we'll loose and some battles we'll win)

(But everything is gonna be alright in the end)

(U can make it if you try) try --

(Keep you head up, you will fly) fly --

(Remember this all a test, keep the faith, don't give up,  
give lyfe your best)

(Lyfe Lessons, Only make us stronger)  
(I know the struggle won't last much longer)  
(U do you and I'll do me)  
(These Lyfe Lessons, Help to define who we be)

(Some battles we'll loose and some battles we'll win)  
(But everything is gonna be alright in the end)

Rock to this, Come on and rock to this,  
We want you to rock rock rock to this  
Rock to this, Come on and rock to this,  
We want you to rock rock rock to this

Lyfe Lessons, Only make us stronger)  
(I know the struggle won't last much longer)  
(U do you and I'll do me)  
(These Lyfe Lessons, Help to define who we be)
