Intro:

Yo, Wyclef, It's time that I confess (Refugee Camp) to  
all the girls

(Don't do it, don't do it)

\*singing\* To all the girls I loved before

\*rapping\* To all the girls I cheated on before

\*singing\* To all the girls I loved before

To all the girls I cheated on before, I tip my hat like  
Willie Nelson

You got pressure, take a sip of this Molson

Here's what happened, it wasn't my intentions

To fall into seduction while playing a temptation

I thought I had it figured out, but games don't last

The hourglass ran out, I got sprayed with the tear gas

Big men don't cry, hold my feelings inside

Stress brings me?, I gotta hold my pride

When I see you with another guy, jealous thoughts of  
homicide

Call me selfish when I say Abraham has many wives

You say this is the 90's, either it's gonna be me or her

I found myself in a blur

Lookin' into the clouds thinkin' out loud

"I'm in love with two women, who is it gonna be now?"

Chorus:

To all the girls I cheated on before, it's a new year

I got a new change of gear, I swear

I can see clear now the clouds disappeared

You forgive but never forget, so the past reappears, uh  
huh

To all the girls I cheated on before, it's a new year

I got a new change of gear, I swear

I can see clear now the clouds disappeared

You forgive, but you still think that I'm a ho

I got married at 24 in New Jersey

You know the feelings start nature take it's course

Two years later 'Clef gets a divorce

When I had the cold feet, I shouldn't've walked the altar

With Dionne Warwick, she could predict my future

Went with my feelings even though it wasn't right

Creepin' with my secret lover in the middle of the night

Back home, break of dawn, dinner's at the table

Thin Line Between Love And Hate is on cable

I'm lookin' at myself thinkin' out loud

"I'm in love with two women, who is it gonna be now?"

Repeat chorus

Break: (includes elements from Rapper's Delight)

Hotel, (I'm not a) motel, Holiday Inn (you don't believe  
me though)

And if your girl acts up at the carnival, then you take

her friend

Hotel, (I'm not a) motel, Holiday Inn (you don't believe me though)

And if your girl acts up at the carnival, then you snatch her friend

Break it down right here

One love, you're lucky to have one love

It sounds bugged, drinking wine from the same jug

One heart, one mind, one soul

She ain't a gold digger, she don't care about your bank-roll

Keep your money, she make her own cheddar

All she want from me is respect like Aretha

Cooked me lasagne, stayed in for the winter

Chilled to the summer, now I'm gone 'til November

Have you seen her?

I think I did

But what I did wrong was take a love for granted

Cause first comes trust, don't rush into lust

Easier said than done, I lust and I must

Passion is a must, but then we start to cuss

We was just makin' love, now we tearing up each other's guts

Like species, she called me an animal

So feel the tongue of the warm-blooded mammal

Repeat chorus

Outro:

I'm not a ho (repeat and diminuendo at the same

time)

(You don't believe me though)

I know you're diggin' this

Is it OK if I play my guitar right about now, is it alright?

(You don't believe me though)

Alright (you don't believe me though), alright

People in the back, is it OK if I play my guitar right about now?

Alright, alright, alright, alright

People on the side, is it OK if I play my guitar right about now?
