Because of love
Im a hundred feet tall
I can bounce this world
Like a little ball
Well the heaven and earth are now mine
I jump to the moon from cloud number 9
Because, because, because, because of love
Because of love Im a mighty big man
Ill hold the sun in the palm of my hand
With just one leap I can cross the seas
I jump over mountains
And fly over trees
Because, because, because, because of love
Well Ive found love, Ive found love
And all that I can say
Well I'll never, never, I'll never, never, never gonna let
it get away
Because of love
Im the happiest guy
And the life is sweet
As a cherry cream pie
Well the heaven and earth are now mine
I jump to the moon from cloud number 9
Because, because, because, because of love
Because, because, because, because of love
