She said, "Hey baby
And my bed began to shake"
She said, "Hey baby
And the earth began to quake"

She said, "Hey baby
I could feel myself falling in"
She said, "Hey baby
Don't you wanna try again"

Been six months since I saw you
Girl, I've been dying for you
Now you call me up
And you say you wanna be my friend, hey baby

You left me here in ruins
Now you ask me how I'm doing
Well, how many times
Do you think my world's gonna end, hey baby?

The very night you left me, they laid me in my grave
Now you send me flowers, darlin' it's too late
Girl, you killed me once that's gonna have to suffice

Darlin', I don't wanna die twice
Hey baby, I don't wanna die twice

Now I never knew love better
Than love we made together
I probably never will
So let that be my curse, hey baby

I really really miss you
I surely gonna kiss you
But you're talking to a dead man
And it don't get no worse, hey baby

On the day you left me, girl I disappeared
Now you call me up, don't you know that I'm not here
You came on like a heart attack, you took me by
surprise

Darlin' I don't wanna die twice
Hey baby, I don't wanna die twice
Hey baby, I don't wanna die twice

That night you called and said you'd had it with me
You don't have to live your life my way
You took our bed and put it out in the street
You left me all over the highway, hey baby

She said, "Hey baby
Tell me, are you all alone?"
She said, "Hey baby
I'm down the corner on the phone"

She said, "Hey baby
Come on downstairs and let me in"
She said, "Hey baby"
Tell me how long has it been"

She said, "Hey baby
You ought to see the shape I'm in"
She said, "Hey baby
I'll make you breakfast in the morning"

She said, "Hey baby
Tell me wouldn't that be nice"

Darlin', I don't wanna die twice
Hey baby, I'm not gonna die twice
Hey baby, I don't wanna die twice

Hey baby, I'm not gonna die twice
Hey baby, I'm not gonna die twice
Hey baby, I don't wanna die twice
Hey baby, I'm not gonna die twice
