"How Long?"

Visit "[How Long?](#)" on MotoLyrics.com

People so afraid of silence
Listen 'cause even your hearts are speakin'
How long before we find an answer?
How long before we find an answer?

Oh, the baby child still fightin'
Sing out with words we can still believe in
How long before we find the reason?
How long before we find an answer?

So say love you, search for love
And you'll find the answer
And then when you can find the answer
There'll only be another question

Sometimes I can feel the spirit shining
Just knowing his love's beside me
So close and still we keep on searching
How long until we find the answer?

So say love you, search for love
And you'll find
And love is still our best protection
Reach out and you will find the answer

How long before we find the answer?
And love is still our best protection
Reach out and you will find the answer
How long before we find an answer?
