If you need someone to lower the light  
Then you want someone to hold you real tight  
Someone who hold you and do it upright  
Baby, keep me in mind

If you feel lonely, long for a kiss  
Then you want someone who'll bring you some place  
Someone who kiss you, never ever resist  
Honey, keep me in mind

Give me a hard knock on my door  
Send me a telegram  
Yeah, down the hall, beat on the floor  
I'll come running, come wherever I am

If you need someone to whom you can cling  
Then you'll want someone who'll lead in everything  
Someone who love you, if you will buy that ring  
Baby, just keep me in mind

I am telling you  
If you need someone to whom you can cling  
Then you'll want someone who'll lead in everything  
Someone who love you, but you gotta buy that ring  
Someone who love you, but you have to buy that ring  
Oh, that twelve carats, blue, white and platinum  
Baby, baby, keep me in mind
