Ego, I want to let you know.
Ego, I got to let you go.
Ego, Open the window.
And go, where the free wind blows.

Rise,Rise

Can you see me now, I have nothing to hide.
Iâ€™m bare and naked, leave it alone or take it.
Where do we go from here, its best to keep our minds
clear.
Untie the lies, the truth is on the horizon.

Rise,Rise,Rise, Rise

Soul, Go home
Cleanse, in crystal clear waters
Blessed, by all that you know
And tested, by all that you donâ€™t.

Youâ€™re soul born, soul born
Youâ€™re soul born, soul born
Youâ€™re soul born, soul born
Youâ€™re soul born, soul born
