

## Dionysos "Telescopes"

Tear these pictures, tear these pictures, in half.  
Forget these memories, forget these memories,  
forever.  
Flame the pain, that stains, insane.  
If you burn these, and didn't learn these, you're  
demons will soon be back.  
Soon be back

I can see so far with my microscope,  
I can see so close with my telescope.

I can see so far with my microscope,  
I can see so close with my telescope.  
I can see so far with my microscope,  
I can see so close with my telescope.
