[Verse 1]

It's time to fight  
As one on the battlefield for every right  
It's up to you to change someone's destiny  
It's time to prove what you wanna do!

[Bridge]

I can see a burning flame  
That light up lost gone souls  
Somewhere is a spark of life  
That leads towards our goal

[Chorus]

We're marching for freedom  
Stand for one kingdom  
Follow the wisdom, all true at heart  
Gather all forces, from long distant courses  
Stronger then ever, all true at heart

[Verse 2]

I have a dream  
To see all the people of our world be free  
We'll live as one, our enemies forces  
Will be on the run, the future is here

[Bridge]

[Chorus]

[Solo]
