Keys backin' from Cuba, Tea bags for the users

Relax you're a loser, ease back or get fuller

These cats out the tula, Lean back in Madulla

V's matchin' my mula, sleeves actually cooler

Wrists look like I been playin freeze tag wit the Jeweler

So I'm extra good, runnin' through this reckless hood

And the crispiest Apes, all my whips up to date

We don't believe that you pop, I'll put this eagle to pop  
You'd rather cop the plea and go plead to the cops  
And say shit like J, I don't need to be locked  
The year, the week or a day, I got a seed on the way  
*[talkin']* What?, Stop cryin' now, Let's keep it movin'  
Sissy I'll let a rattle clap, 60 up in this bastards cap  
Dig me I'm what you rappers lack, sicker than all your  
battle raps  
Slither up in the asta hatch, or watch young move  
On junk food, Twinkies sit on the caddilac  
Shit I go glock for glock, let's see you dodge a shot  
I get the hotties hot, just off my rocky rocks  
Them make the goggles drop
