I've packed up everything I loved in the trunk of the car
over there
putting in the key, I'm going for a last drive from the
cliff I'll be free...

My Sister, Obscene Sister fucked toyed with drowned
My Sister, Lustful Sister if you notice the white ocean
floor
My Sister, Mother Is Sister mother loved the white
ocean
My Sister, Drug Addiction (R)

I Will Go To The Heaven
Playing The Suicide
I Will Go To The Hell

I've left behind everything I loved through the door of
hope that's down there
with my right hand I catch hold of hands that won't stop
trembling so I won't notice the
tears she hides from me

now my child and I are packed in together sleeping
down there in the trunk of the car
