Yeah yeah, hey yeah

Hey hey, what do ya say
I've got you, it's a brand new day
Ain't nothing gonna bring me down

And if we stick together like crazy glue
As long as you've got me baby, I got you
There's no stopping us now

And when it's dark, when it's cold
When you're scared and alone
I'll be there by your side
And that's all you need to know

These are the reasons that we love
And baby my love you can be sure of
I got your back when the odds are stacked
Against us you will see
This is a promise I will make
You can always count on me
You can always count on me

Relax, if we get off track
I'll take the wheel and steer us back
I'm looking out for you, yeah
And even if we don't see eye to eye
We can still share peace with the big blue sky
That's what best friends do, yeah

And when you're down, when you're out
Call my name, scream it out
I'll be there, don't forget
That's what friendship is all about

And these are the reasons that we love
And baby my love you can be sure of
I got your back when the odds are stacked
Against us you will see
This is a promise I'll make
You can always count on me
You can always count on me

Cause you make me smile, and you make me laugh
I will catch your fall when you need a hand
You won't ever have to wait, let's go

Yeah
These are the reasons that we love
The reasons we love, yeah
And baby my love you can be sure of
I got your back when the odds are stacked
Against us you will see
This is a promise I'll make
These are the reasons
You can always count on me
These are the reasons

These are the reasons that we love
This is a promise I will make, yeah
And baby my love you can be sure of
I got you babe
I got your back when the odds are stacked
Against us you will see
Against us you will see, yeah
This is a promise that I'll make
The reasons that we love
You can always count on me
This is the promise that I'll make, yeah
You can always count on me
These are the reasons, yeah
You can always count on me
My love you can be sure of, yeah
You can always count on me
I got your back, yeah baby
Yeah yea
Wooh

These are the reasons we love
These are the reasons, yeah
My love you can be sure of baby
