Hey girl, take the wheel, I can't drive anymore  
What I want is to park this car  
When I'm with you  
And wait 'til the cops come around

We're gonna find love if we keep this up  
Can't stop, we feel the rush  
If we keep foolin' around and it gets crazy enough  
We're gonna find love

The first time I met you  
Well, it crossed my mind  
Your next kiss and your last kiss are gonna be mine  
And I'd say, we're right on time

Gonna find love if we keep this up  
Can't stop, we feel the rush  
If we keep foolin' around and it gets crazy enough  
We're gonna find love

Steamy windows  
There's no way out  
One more kiss  
Are you with me now, go

Gonna find love if we keep this up  
Can't stop, we feel the rush  
If we keep foolin' around and it gets crazy enough  
We're gonna find love

Gonna find love  
We're gonna find love  
(Gonna find, gonna find love)  
Gonna find love  
(Gonna find, gonna find love)  
(Gonna find, gonna find love)

Your next kiss and your last kiss are gonna be mine  
(Gonna find, gonna find love)  
(Gonna find, gonna find love)
