When the thunder came
With our flag in flames
Everybody change the color
When the night became so dark with pain
Everyone became a brother
I came across the universe
And I don't know why
I came across the universe
To hear a soldier cry

Is anybody out there?
Is anybody listening to my prayer?
Is anybody out there?
If you can hear me please take me out of here
Is anybody out there?
Is anybody out there?
Is anybody out there?

And the morning light makes you wonder why
You were ever born to see it
When your body's cold it's not the story told
To the brave young souls who believe it
They came across the battlefield
And they don't know why
They came across the universe
To hear a soldier cry

Is anybody out there?
Is anybody listening to my prayer?
Is anybody out there?
If you can hear me please take me out of here
Is anybody listening?
Is anybody out there?

We're not his friends
Though he fears the end
And he'll die for them if he had to
Rise again fall again
In the end I will come to the rescue

Oh is anybody out there?

Is anybody out there?
Is anybody listening to my prayers?
Is anybody out there?
If you can hear me please take me out of here
Is anybody listening?
Is anybody out there?
Is anybody listening?
Is anybody listening?
Is anybody out there?

When the night became so dark with pain
Everyone became a brother
