"We Go On"

Visit "[We Go On](#)" on MotoLyrics.com

Deep in the valley of our soul
Tired of worries you can't control
With so many mountains left to climb
Unanswered questions left to find

[Chorus]

We go on
We go on
It's the first lesson learned when you're born
On the wings of angels
We ride out the storm
You and me
We go on

Pull a stranger from the water
And in that moment he's your brother
There's a gift when you receive him
Love is the greatest reason

We go on
We go on
It's the first lesson learned when you're born
On the wings of angels
We ride out the storm
You and me
We go on

Faith happens when you can't see
Against all odds you believe

[Chorus]

We go on
We go on
It's the first lesson learned when you're born
On the wings of angels
We ride out the storm
You and me
We go on
