Welcome home to the land of treason  
Victimized by conspiracy  
Marching on, it's the killing season  
Join the murderous parade

Scan the Earth and release the soldier  
Gun in hand he crawls through the mud  
Sweat pours as you pull the trigger  
And paint the walls with blood

Force fed lies  
A plague of ignorance  
Force Fed Lies  
We'll burn it down, let's burn it down

Say a prayer for the unknown soldiers  
On their backs they make not a sound  
Give their lives for a badge of honor  
Six feet below the ground

Force fed lies  
They prey on ignorance  
Force Fed Lies  
We'll burn it down, let's burn it down
