

Dirt **"Crisis"**

Visit "[Crisis](#)" on MotoLyrics.com

So this is the crisis they knew had to come, why do they act so surprised? you know they've been warned often enough, we wont take any more lies. And this is the crisis they tried to ignore prevention of chaos they said and this is the crisis that led to a war, do you care how many are dead? Its anarchy, freedom, peace that we want not organised chaos to fight, freedom of choice a right of our own, not governments wrongs or rights. So get out of this crisis wash the blood from your hands, let the system fight its own war. We'll have the anarchy, freedom, peace we deserve cause we don't need their laws.
