[Intro]

First off, I wanna say I thank all the radio stations  
that EVER showed them Dirty Boyz some love  
We 'preciate that... but we doin' this for all our  
down-south rappers that ain't gettin' no love on  
these video stations and on these radio stations...  
All my down-south soldiers, they gon' keep doin'  
this to us if ya'll don't stand up, right now and ride with  
us  
STAND UP RIGHT NOW, AND NIGGA LET'S RIDE

[Verse 1:Big Pimp]

I don't know if I'm goin', or leavin', or comin'  
But I know Universal got us starvin' and hungry  
I'm sick to my stomach, I vomit every time  
I see a video on TV that ain't mine  
You know I ain't lying, half of 'em can't rhyme  
Black Entertainment... why ya'll won't play mine?  
We gave two videos to B-E-T  
For both, we paid 200 G's a piece  
Ya'll must don't like us, all ya'll must hate us  
We don't get no love and support from our label  
Two whole years, and ya'll just dropped the album  
With no fuckin' commercials or promotions to tell them  
That we was comin', so people could go runnin'  
To the nearest music store, so we could have us some  
money  
So I could feed all my kids, pay all my bills  
Rent thirty days late, so where the FUCK we gon' live?  
Nelly and Baby selling records way to Timbuktu  
If ya'll put all the money behind them, what the FUCK  
we gon' use?  
But Nelly and Baby, we ain't hatin', we just lettin' it be  
known  
To show the whole world how Universal, doin' us wrong

[Chorus]

Either you gon' love uuus (Either you gon' love uuus)  
Or you gonna hate uuus---There's no in-between  
I sit and wonder where we went wrong  
You motherfuckers better love us or just leave us alone

Either you with uuus (Either you with uuus)  
Or you against uuus---There's no in-between  
I sit and wonder where we went wrong,  
You motherfuckers better love us or just leave us alone

[Verse 2:Mr. G-stacka]

It's like either you gon' love us, or hate us, bitch  
niggas, just face us  
Two of the coldest thangs ever to touch pencil and  
paper  
How the fuck they gon' replace us, knock'em off it they  
think such  
Been in this game too long, I'll let loose chrome before  
I get touched  
'Cause this shit done got me too hot, and I wanna know  
who shot Tupac  
'Cause them might be the same lames that try to make  
sure we don't reach top  
But I think not, 'cause I keep glocks... Ya'll niggas ain't  
feelin' me  
It's time for Pimp and G to get rid of all wack niggas in  
this industry  
It's history, what they should be, all kinda unsolved  
mysteries  
These hollow-T's in this 2-2-3, will end your life so  
damn tragically  
I'm talkin' to all the big men, with authority over our shit  
playin'  
These niggas that's over these video shows is hoes,  
and that's what G sayin'  
Rewind that back and replay it, if didn't quite get  
through your head  
I don't bite my tongue for none, so why in the fuck am I  
supposed to be scared  
Ya'll bitches done brought the south shame, bitin' up all  
the south game  
Then blowin' up off the south name, don't never wanna  
give the south fame  
But ya'll better tell'em, that Gangsta straight rebellin'  
I'll go off, and put twenty holes in your cerebellum, you  
smell'em?  
They try to stop us, but these niggas fellin'  
And every time you see me this is what the fuck I'm  
yellin'

[Chorus]

[Verse 3:Mr. G-stacka]

Now off the top I'm tellin' these lame ole, plain ole,  
sadiddy, and bourgie  
Wanna-be white niggas, 'round here judging gangsta

music  
See this here is not for you trick, get on up outta office  
Let the hood niggas judge me, 'cause the hood is the  
ones who bought this  
In Vibe they tried to talk shit, them sissy there can suck  
dick  
'Cause Pimp and G the rawest, everythang we spit is  
flawless  
Why the hell they want to start us, spittin' false  
information  
They staff get infiltrated, and bullets gon' penetrate  
'em

[Big Pimp]  
And that's how every rapper, comin' from down south  
feelin'  
We can't speak our minds 'cause east coast run hip-  
hop television  
And it's so puzzling, to the fact and I really don't get it  
They still won't play our video even though we put  
Tigger in it  
'Cause we don't dance around on all our videos like P.  
Diddy  
Is ya'll tellin' me that all my videos ain't "jiggy"?  
Oh, you hear me? And it's a shame, and it's a goddamn  
pity  
How [BET] showin' more love to rappers from New York  
City  
[Chorus]
