Rats, monkeys, mice-  
teach 'em little tricks'  
stay far from creativity,  
and from politics  
cause the multinationals need  
a solid work force  
or their growing profit margins will be wiped out at the  
source

conform to the status quo, set rules  
hold your mind into their fucking tool  
reciting back their facts and numbers-that don't make  
you smart  
there's much more to intelligence-  
and thinking for your self would be a start  
yea would be a start  
yea would be a start  
yea would be a start...START!

pledge allegiance to a flag of which you're taught no  
history  
not mexico, granada, panama, or middle east  
but they're just a mere fraction of this country's shady  
past  
skeletons locked in the closet and I doubt they'll be the  
last  
"national intrest" defined for you  
...but who's it really serve? who's getting screwed?  
reciting back their facts and numbers-that don't make  
you smart  
there's much more to intelligence-  
and thinking for your self would be a start  
yea would be a start  
yea would be a start  
yea would be a start...START!  
your prison warden is your school  
training you to be a social screw  
stage a jailbreak, swim against the flow  
show those mother fuckers what you know!  
i feel like i am suffocating  
i feel my life depreciating

i know their teachings are riddled with lies, distortions,  
shit!  
it kills me knowing the masses are so brainwashed by  
it- brainwashed by it!  
NO!
