WHEN YOUR B****
Leaves you in dispair
And there's no body
To play with your pubic hairs

Don't you feel like beating
Don't you feel like beating her ass
When you find her ass don't hesitate
To bring her to me

When you are alone
Beat your meat for a while
Then as her number appears
On the caller ID smile

Cuz there will be more beating
There will be more beating her ass
So now that I've found her
Don't worry about bringing her to me
