In the still of the night
I held you, held you tight
'Cause I love, love you so
Promise I'll never let you go

CHORUS

In the still of the night
In the still of the night

I remember that night in May
The stars were bright above

I'll hold and I'll pray
To keep your precious love
Well before the light

Hold me again
With all your might

CHORUS

So before the light
Hold me again
With all of your might

CHORUS

In the still of the night
Ohhhh...
Oooo...
Oooo...
