I want to know a little bit of everything

I want to have a little bit of everything

I want to enjoy, I want to dance,

And I want to sing a little bit of everything.

I want to try a little bit of everything

I want to get a little bit of everything

I want to live, I want to laugh,

And I want to feel, just a little bit of everything,

A little bit of everything, a little bit of everything,

A little bit of everything, a little bit of everything,

A little bit of everything...

A little bit of everything, a little bit of everything,

A little bit of everything, a little bit of everything,

A little bit of everything...

A little bit of everything, a little bit of everything,

A little bit of everything, a little bit of everything
