Odious in the utmost degree. Yours are the eyes of
Horror. Hideous creature from the abyss. Body of open
Wounds. Maggots infest. What is this? It cannot be.
Monstrosity. Emerging from beyond this reality.
Metamorphosis of a monster that I set free. Of a thing
That cannot be named. Blasphemy. Unspeakable
horrors
That come forth. Into this world. I summoned it from
Deep within the book. Necronomicon! Gone beyond,
which
That is wrong. Normal mortality to damnation. To what
My mind cannot perceive. And now madness takes
over.
Instigate to terrify. My unwanted retributes me. To
Confront the carrion demon. Horror. It sickens. Fear
Its feat. A beast unleashed. Closed in all around.
Haunted by the sound. Sickening demon. Perverse. So
Unclear. Tentacles. Arm like. Slap in disarray.
Malevolent mutant. Obscure shadows it portrays.
Spoken. The predictive words. Clearly out loud. Before
Madness overwhelms my mind. Cry it screams out in an
Ancient voice. Time and space. Enters into a vacuum
Hole what is this. It cannot be. Monstrosity. Emerging
From beyond. Heavy metamorphosis of a monster that
I
Set free. Of a thing that cannot be named. Blasphemy!
Abominant!
