Remember your carress so gentle
Remember your kiss so delightful
With tears running down my cheek
I sit here alone wondering - why?

Sing with me - this song of love so pure
Sing with me - this mournful serenade
Sing with me - this song of love so pure
Sing with me - this mournful serenade

The pain inside me is unbearable
My love for you stronger than ever

Why this sunf=dden departure
Why did you decide to end your own life

Sing with me - this song of love so pure
Sing with me - this mournful serenade
Sing with me - this song of love so pure
Sing with me - this mournful serenade

With the moon as my only light
I stare at the picture of you
With one shot I ended my life
So that we forever will be united
