She's as hard as nails  
She never fails  
Well I'll be dammed  
She's after the males

When she walks down the street  
With you at her feet  
You'd like to get on top of her  
But you aint the man she wanna meet

She's the Hard walking Girl  
She's the Hard Talking Girl

She don't take no crap

She reads me like a map  
She got good taste in music  
She don't like no rap

But you can't turn your back  
Or she'll give you the sack  
One day shell ask me and say  
"C'mon lets Fack!"

She's the Hard walking girl  
She's the Hard talking girl
