The one life to live so Ima live it  
The one chance to give so Ima give it  
All that I have with no limit  
We made it this far but it's only the beginning  
Got my eyes set strictly on the prizes  
Standing in my own two shoes my whole life is  
Easier said than done but I survived it  
Aim for the stars dream big and don't hide it  
I got my head up in the clouds now  
I'm so high I'm never coming down  
A lot giving up here watch it live from the sky  
Everything becomes clear  
And as the mist rises I can see horizons  
A new day is dawn I'm just happy to be alive  
Ima make it to the top If not I die trying  
If I'm lying watch my nose grow Barbara Streisand  
I got my head up in the clouds now  
I'm so high I'm never coming down  
A lot giving up here  
watch it live from the sky  
Everything becomes clear

[Chorus]

When life is boring  
Write your own story  
In skies you're soaring  
When life is surreal  
Put on your Disguise  
And just live in the skies  
Put on your Disguise  
And just live in the skies

I've seen things I just can't explain  
I've seen the fire and I've seen the rain  
I've been places and ask questions  
But was told that my answers were blowing in the wind  
So now I follow the purple haze  
All the way through the everglades  
I've broken through to the other side  
Just to find myself building castles in the sky  
Never rise up I can see reality below me

Floating on a dream to the house of the holy  
Hands clinched tight praying death comes slowly  
Cause life is too short to give up what you owe it  
I got my head up in the clouds now  
I'm so high I'm never coming down  
A lot giving up here watch it live from the sky  
Everything becomes clear

[Chorus]

When life is boring  
Write your own story  
In skies you're soaring  
When life is surreal  
Put on your Disguise  
And just live in the skies  
Put on your Disguise  
And just live in the skies

[Chorus]

When life is boring  
Write your own story  
In skies you're soaring  
When life is surreal  
Put on your Disguise  
And just live in the skies  
Put on your Disguise  
And just live in the skies

[Chorus]

When life is boring  
Write your own story  
In skies you're soaring  
When life is surreal  
Put on your Disguise  
And just live in the skies  
Put on your Disguise  
And just live in the skies
