Whiskey's out, your room is a mess  
What you been through  
A whole lot of memories you regret  
And they're all comin' back to you  
It's a shame there's no one to blame  
For what you do  
It's in black, it's in white  
It will get you tonight  
Me and you

No brains child  
No brains child

Dream walker livin' on an edge  
Yes you break or you fall  
You got a telephone by your bed

But no one ever seems to call  
Up, up the check's in the mail  
And the rent is due  
It's in black, it's in white  
It will get you tonight  
Me and you

No brains child  
Your mama's callin' you now  
No brains child  
You're gettin' stupid and your two's ain't the same  
No brains child  
No brains my child

(Solo)

No brains child  
No brains child
