I got a magic wand pointed right at you
Don't try to make a move, there's nothing you can do
I am heavy like a chevy
You don't know it, you won't blow it
Come on honey we can make it
A few more hours and you can take it, because

I put a spell, put a spell, put a spell on you
I put a spell, put a spell, put a spell on you

I get out my magic dust

Silver lining, chrome wheels
Hot shiny shiny steel
Roll your dice, take a chance
I got you burnin' for hot romance, because

I put a spell, put a spell, put a spell on you
I put a spell, put a spell, put a spell on you
Yes, I do
Yes I do, I do, right on you

Abra cadabra baby

(Solo)

Hocus pokus, just a joke, yes
Roll me over four leaf clover

Heavy duty, such a beauty
Shake it now, fade away, fade away... hey hey

I put a spell, put a spell, put a spell on you
I put a spell, put a spell, put a spell on you
