"9 Lives"

Visit "[9 Lives](#)" on MotoLyrics.com

May the Lord have mercy on me since I kicked him in
the teeth
I said bye bye sinning days - fare thee well
Could have stopped at number two but there was so
much left to do
Does cheating on her send you straight to hell
Phone wakes me up at three, a naked body lies next to
me
Who slipped her the mickey - bye bye

Lets all drink them away, we'll try another day
Don't know any other way - La la la
As for life number four - wasted in the arms of whores
Farewell to innocence, fare thee well
Smoked my fifth life into black clouds, not a stitch left
to be proud of
Bye bye to these five lives, fare thee well

Six little lives, six dirty lives,
talking rubbish and scrapping through the night
Farewell innocence fare thee well

Lets all drink them away, we'll try another day
Don't know any other way - La la la

Seventh life making friends with God but he just
wouldn't call me back
Bye bye redemption, fare thee well
Eight lives count down the days, that colossal fall from
grace
Back to Pentonville to be alone
One lonely life on its knees cursing all he sees
And praying down the barrel of a gun

Lets all drink them away, we'll try another day
Don't know any other way - La la la
