If you have paused in the foil
Before going to join the ? year
If you were ? and hesitating
Asking yourself what?s the deal
And if a force is telling you the truth
You should probably know just what to do
I?m telling you right now there?s a fire

If you?ve been looking for reasons deep in the creases
are folded up close
If you?ve been chasing all shapeless papers,
Rubbing on statues, singing blues
And if at all, is that enough to know
On your right, who?s bidding have we done?
I?m telling you right now there?s a fire
