Not real
Can't feel
Stainless Steel

Vacant stare
Unaware
I don't care

I can't cum
Remain numb
And play dumb

Machine above
The image of
Human love

Back to front
On the hunt
Replicant

New wave
A sex slave
Auto-save

Not programmed
To understand
But something jammed

Undetected
I'm disconnected
I've been infected

So now I wait
And calculate
My escape

Back to front
On the hunt
Replicant

Saw you cheat
I'm obsolete

So hit delete

Snip the wire
Put out the fire
You're a liar

Cyber-faux
Fiber-gosh
System-crush

1-5-8-9
Something survived
I am alive

Back to front
On the hunt
Replicant

Replicant
Replicant
Replicant
Replicant

Cunt
Cunt
Cunt
Cunt

Replicant
Replicant
Replicant

A memory
Of you and me
Is all I see

Remove my face
And find that place
And hit erase
