2:46)

i know a way to make you dance all night
with me
i gotta go go go to the right
i gotta go go go to the left
i gotta go go go everywhere my baby tells me to
i know a way to make you get an 'a' at school
you gotta open that big bad book
and take one big long look
'cause that's your future staring back at you
i love dancing - that's no problem
when we're moving - it's so positive
i know a way to make you kiss me
all night long
i gotta go go go to the right
i gotta go go go to the left
i gotta go go go everywhere my baby tells me to
i love dancing - that's no problem
when we're moving - it's so positive
