3:48)

Gonna tell you now like i told my friends
In case you haven't heard i'm one of them
Rings on fingers, dogs on clouds
Loving you and feeling proud
I can't pretend that all is gold
When only half the story's told
I feel the calling of dawn
And i may be wrong, but
There's blood on the paper the president has signed
How can he go plan a war and then sleep so fine
Rings on fingers, dogs on clouds
Loving you and feeling proud
I can't pretend that all is gold
When only half the story's told

I feel the calling of the dawn
And i may be wrong but
I gotta know if you're gonna be my partner
I gotta know if you're gonna make it hard
I put out my hand
It's starting to shake
My love's on the line
I fear my heart break
Can you buy your way out of this kiss
It's priceless
