I am descending
Towards the burning me
He lies awake in slumber
Cradled by lustful dreams
I need fuel to feed my fire
Blood shots of gasoline
Fulfil my self-destruction
till flames burn within

coz I wont wait another day
I dont need your foul salvation
All I want is to burn away
And I wont save me from myself
I dont see a better solution
All I want is to feed my pain

I dont need to be immortal
I just want to burn away
I cant see a better solution
All I need is to feed my pain

Do you lack the words to say?
You will miss em anyway
Face first right in the dirt
Force-fed by broken hopes
Another time a better ending
Your life sucks, stop pretending
Tomorrows just a step away
Face first right in the grave

coz I wont wait another day
I dont need your foul salvation
All I want is to burn away
And I wont save me from myself
I dont see a better solution
All I want is to feed my pain
I dont need to be immortal
I just want to burn away

Im sinkin further in my guilt
Fuelled by the wave of sin

My flame is burning so dim

Still sinking downward
Inside a broken shell
Through streams of burning magma
Across this living hell
